Little  
Pony™

**WARNING:**

CHOKING HAZARD—Small parts.  
Not for children under 3 years.

## Twist & Style Petal Parlor™

Thank you for purchasing this MY LITTLE PONY playset! For maximum play value, please read and follow instructions carefully.

Includes pony figure, BREEZIES™ figure, 3 barrettes, flower platform and brush. Large pony's head can turn. Flower platform and large pony's foot both contain magnets.

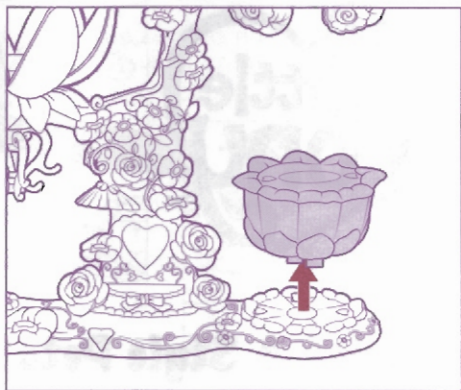

Note: Playset for use with My Little Pony® figures only; works best with Super Long Hair ponies and pony that is included with playset. Twisting mechanism will not work for BREEZIES or baby ponies. When using other ponies, use barrettes to secure twisted hair in place.

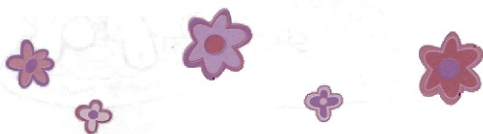

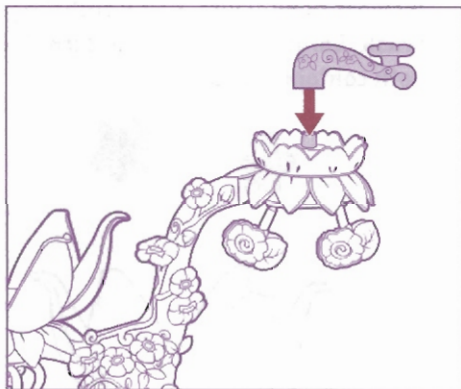

## TO ASSEMBLE

Remove flower platform.

**NOTE:** Platform is not needed for use with included pony. When using playset with ponies that don't have extra-long hair, press flower platform back into place under the twisting mechanism.

To assemble twirling mechanism, snap handle onto post. Line up indent on handle with recess on the post and snap to fit securely.

## TO PLAY

### For playset pony and Super Long-Hair ponies:

Stand pony on one of the heart shapes on the flower base as shown. Make sure pony's magnetic foot is resting on the heart shape. Divide pony's hair into two **small** sections and fasten the end of each section to a flower clip on the twisting mechanism. Press on the leaves of each flower clip to open, then place hair in between the flowers.

Turn handle in either direction to make clips spin, continuing until hair sections are almost completely twisted. Pull gently or open clips to release hair.

To prevent entanglement, **remove hair before the twist reaches the top of the twisting mechanism**. To keep the twist in place longer, fasten end of hair with barrette.

### Helpful styling tips:

Brush pony's hair before inserting into twisting mechanism.

Make sure both clip openings are facing the front of the playset before you insert pony's hair.

Use small sections of hair for best results.

### For other pony figures:

Place flower platform on base of twisting mechanism, then place pony on the platform and follow directions above. Make sure pony's magnetic foot is resting on the heart shape.

**NOTE:** Twisting mechanism works best on ponies with extra-long hair. When using other ponies, use barrettes to secure twisted hair in place.

## Opening and Closing Flower:

**BREEZIES** figure fits inside flower!

Flower opens when pony places her magnetic foot on the heart; **keep pony's foot on heart until flower has opened completely.** To close, twist the hanging vines under the flower in a counter-clockwise direction.

**Important:** Open flower by using magnetic mechanism **only**; do not open by hand.
